

YO-ZURI®

YO-ZURI® SUPER BRAID

Super Strong PE Braid Line!

Micro pitch, specially coated braided line. Smooth surface design reduces friction and line noise, allowing you to fish with stealth and silence.

● LINE COLOR

DARK GREEN

BLUE

All YO-ZURI PE Braided Line is made from Ultra High strength polyethylene fiber "IZANAS™" made in Japan manufactured by TOYOBO.

IZANAS™

TOYOBO

H.I.P. Heat Integration Process

Tightly braided micro pitch braid processing, and fibers are adhered firmly each other by performing a special heat treatment.

Rounder, Smoother, More Abrasion Resistance.

Point 1

Abrasion Resistance is twice that of conventional braided line. Color fading is drastically reduced.

	Abrasion
SUPER BRAID	73 Times ↑ Twice Stronger
Ordinary Braid Line	29 Times ↓

Point 2

Rounder and Smoother compared to conventional braided line. Resistance of casting is reduced and casting distance improved because fibers are braided rounder and tighter. Significant reduction of rod guide friction noise.

Point 3

Less line-trouble when casting. When used in jigging, water is drained better and line can be dropped smoothly minimizing resistance caused by line slack.

Point 4

Significantly Increased Sensitivity and Easy Handling!
